GRAPPLER™

ONE-HANDED OPENING TOOLS

With the simple flick of your wrist, the pliers snap into place, ready for action. This patented technology is the cornerstone of many of our most popular tools.

- Wrist-flick pliers deployment
- Fully locking components
- Stainless steel construction

STRATA™

BUTTERFLY OPENING TOOLS

These high-performance tools blend ergonomics, style and durability with spring action handles, external one-handed component access and comfortable contoured grip areas.

- Spring action handles
- External component access
- Fully locking components

CURVE™

KEYCHAIN TOOLS

Gerber quality, form and function in pint-sized packages. The folding tools feature anodized aluminum spring action handles and are available with either pliers (Vise) or scissors (Splice). The Curve™, our smallest keychain tool yet, features essential implements in a super compact size.

- Folding tools feature spring action handles and are available with either plier jaw or scissor
- Curve offers a version that can be engraved
