

NEW VITAL SERIES

VITAL™ POCKET FOLDER

Featuring one of the safest Exchange-A-Blade options out there, a surgically sharp blade cuts through game easily, requiring no extra tool if you need to replace the blade on the fly. The orange handle is easily spotted and a large finger choil adds stability.

"Took two nice deer this evening, a buck and a doe and used one Vital #60 blade to skin and quarter both deer, when we finished the blade was still sharp, highly satisfied with this product and recommend this knife to everyone."
★★★★★
WASEY HARRISON, Mississippi
